**AND**

- Mercury Payment Systems (RFID & POS)

\*If you have an existing merchant account you can convert that account to process through the Authorize.net or E-xact gateway. You will need to open a gateway only account and have your existing merchant provider update your account to process through this gateway. Go to [www.autopilotcontrols.com](http://www.autopilotcontrols.com) for a link to setup the Authorize.net gateway.
